SUMMARY

Highly skilled and creative React UI Developer with a strong background in building visually stunning and user-friendly web interfaces. Experienced in leveraging modern front-end technologies such as React, JavaScript, HTML, CSS, and SCSS to create responsive, accessible, and performance-optimized web applications. Adept at collaborating with cross-functional teams to transform design concepts into functional, interactive, and pixel-perfect interfaces. Passionate about crafting seamless and engaging user experiences that align with modern web standards and best practices.

PROFESSIONAL EXPERIENCE

Aufait UX | UI Developer (React js) - December 2022 - Present

- Developed dynamic and reusable React components for web applications, improving modularity and maintainability.
- Translated UI/UX designs into responsive, user-friendly interfaces using HTML5, CSS3, SCSS, and JavaScript.
- Collaborated with back-end developers to integrate RESTful APIs, ensuring seamless data flow between front-end and back-end systems.
- Created reusable React components and UI libraries to streamline development across projects.
- Integrated RESTful APIs and managed data fetching using Axios.
- Worked closely with designers and other team members to ensure seamless integration of animations with the overall design and functionality of the website.

PROJECTS

OneView

Technologies : React.js, Sass, Next.js, Ant Design
A document management platform for application submissions with separate portals for founders and admins. Built modular, responsive UI components with Ant Design and Sass, ensuring seamless performance and scalability.

KuwaitCars

Technologies : React.js, Sass, Ant Design, Axios
A car listing platform for buying and selling vehicles. Developed a fully responsive site with API integration for dynamic data and a clean interface using Ant Design.

AufaitTech Company Website Redesign

Technologies : HTML, Sass, JavaScript, GSAP
Redesigned the company website to align with new branding. Enhanced user interaction with GSAP animations and delivered responsive web pages.

DSS Design System

Technologies : HTML, GSAP, Sass
Created a landing page with scroll-triggered animations, gaining recognition as the go-to person for animation development within the team.

ID Fresh Foods Month Planner

Technologies : React.js, Axios
A month planner tool for ID Fresh Foods to track and plan activities.
Key Contributions:
Developed a tool for tracking and planning activities. Built a clean, responsive UI with seamless API integration for dynamic data.

Other Projects

Developed multiple responsive websites, including Jethur, GBC, Club-Sulaimani, and Fitreat Couple, focusing on clean design, interactivity, and modern web standards.

EDUCATION

- Bachelor of Engineering (B.E.) in Mechanical Engineering, Saveetha Engineering College Chennai, July 2017 - June 2021, CGPA: 7.39

SKILLS

Programming Languages: JavaScript, HTML5, CSS3, Sass/SCSS

Frameworks and Libraries: React.js, Next.js, Ant Design

Development Tools: Visual Studio Code, Git, NPM

API Integration: Axios, Fetch API

Version Control: Git (Branching, merging, and Collabration)
